

PERFORMANCE MEASUREMENTS REPORT FOR FYE 19

SURFACE TRANSPORTATION

DESCRIPTION

The Surface Transportation Business Unit is responsible for all ground-based transportation services operated and provided by NFTA. Such services include fixed-route bus and rail routes, paratransit and other non-traditional transit services, and intercity bus terminals in Buffalo and Niagara Falls. Surface Transportation units include Metro (fixed-route bus and rail), Marketing, Service Planning, Special Services (paratransit and MetroLink), Transportation Centers (bus terminals and Central Services), and Customer Service.

The mission of the Surface Transportation Business Unit is to enhance the quality of life of residents and visitors by providing the highest level of safe, clean, affordable, responsive and reliable transportation through a coordinated and convenient bus and rail system. Our vision is to support the effective coordination and partnership with public and private entities in continuously improving transportation services to promote regional growth. The range of mobility services we will provide includes traditional bus and rail lines, circulator routes, employer shuttles, paratransit, bicycle programs and pedestrian enhancements. Our goal is to achieve a reputation as the best transit system in the United States.

METRO

Metro provides comprehensive fixed-route urban and suburban public transportation services within the Erie and Niagara county service area. Metro's 325 fixed-route big buses, 75 Paratransit/MetroLink vans and 27 rail cars operate up to 21 hours per day, seven days per week, to serve the residents of the urbanized area. There are 61 bus routes on which Metro operates nearly 12.5 million annual bus miles, and one rail route on which 936,000 annual car miles are operated. Each weekday, Metro carries approximately 85,950 passengers on buses and trains. In FYE 18, 25,158,939 customers used Metro.

Metro consists of two operating divisions, Bus and Rail. Metro Bus consists of three operating locations and two units including Bus Transportation Service and Bus Maintenance. Metro Rail encompasses one operating location and two units including Rail Transportation Service and Rail Maintenance. In addition, the Transportation Support department is included within Metro. There are 1,169 budgeted positions in these units.

It is the primary responsibility of each operating location to provide service to the public as scheduled. This involves managing a properly trained workforce of transportation and maintenance professionals of an adequate, cost-effective size; monitoring and enhancing the quality of service; and adjusting service as required to accommodate service needs.

The Transportation Service Departments in the Bus and Rail divisions are responsible for supervising transit service and control center operations. Their functions include the continuous monitoring of service delivery with corrective action when problems occur, responding to emergencies, providing service to special events, coordinating transit service with construction projects, and communicating with operators and maintenance personnel.

Major Bus Maintenance activities are performed at the Cold Spring Shop. Such activities include major component change-out, bodywork, painting, engine and transmission rebuilding, parts reconditioning and structural repairs, radio maintenance and farebox maintenance. Shop employees also maintain the bus garage facilities, bus stop signs and bus loops.

Maintenance of the rail physical infrastructure is the responsibility of Metro Rail Maintenance. Among the physical plant elements that require a high level of ongoing maintenance are the track, communications systems, fare collection system, ventilation system, train control system, the electrical distribution system, and the stations and tunnels.

The Transportation Support Department is responsible for new operator training, oversight of the bus communications system, and the issuance of system operating notices.

SERVICE PLANNING

The Service Planning function ensures that convenient, cost-effective transit services are available to meet the mobility needs of the public. This is accomplished through a complex and dynamic process involving continuous measurement and estimation of ridership demand, followed by the development of convenient, cost-effective operating schedules to meet that demand. Service Planning reports and evaluates Metro ridership/route performance statistics.

SPECIAL SERVICES

Metro's Special Services unit is responsible for the overall direction of complementary paratransit service, as required by the Americans with Disabilities Act (ADA). It serves individuals who are unable to use Metro's regular, fully accessible fixed route bus and rail system. In addition, this unit is responsible for managing MetroLink and non-traditional transportation services, such as airport shuttles, college circulators, vanpools and, employer shuttles, provided by Metro either directly or through agreements with private providers and/or outside agencies and Metro's reduced fare program which allows services and people with disabilities to ride at a reduced rate..

TRANSPORTATION CENTERS

The Transportation Centers unit maintains the Metropolitan Transportation Center including NFTA corporate offices located at 181 Ellicott Street in Buffalo, the Transportation Centers in Niagara Falls, the Operations Control Center and Transit Police

Headquarters. This department provides building maintenance and janitorial services in order to present a clean, comfortable and safe environment for NFTA employees and the traveling public. This unit also monitors and performs services for the tenants of various facilities.

CUSTOMER CARE

The Customer Care department is responsible for providing the public with quality bus and rail information. This is achieved through the operation of a customized automated telephone information system (IVR) along with an automated trip planner (ATIS) that is accessible to the public via the NFTA website. The Customer Care department processes nearly 450,000 calls annually. Currently, the automated trip planner is utilized by agents and customers in planning more than 33,000 trips per month, and the automated system provided information to riders over 435,000 times in 2018. Along with being responsible for resolving customer complaints and providing trip information, the department also administers the Emergency Ride Home Program.

BUFFALO NIAGARA INTERNATIONAL AIRPORT

DESCRIPTION

The Buffalo Niagara International Airport (BNIA) is the primary commercial airport for Western New York and Southern Ontario. BNIA provides safe, high quality, and reliable scheduled air passenger and cargo services. The mission of BNIA is to provide quality aviation services and facilities in a manner that enhances customer service and is cost effective.

In 2018, BNIA was ranked number 1 in overall traveler satisfaction for medium sized airports according to a passenger survey conducted by J.D. Power & Associates.

Six scheduled air carrier regional/commuter airlines fly out of BNIA handling approximately 5 million passengers annually. New non-stop service to Dallas/Fort Worth, Texas and seasonal international service to Montego Bay, Jamaica began in January 2019.

The 1,000 acres of airport property includes two runways (8,827 ft. and 7,161 ft. in length), an FAA Air Traffic Control Tower, Weather Observatory, Aviation Fuel System, General Aviation Facility, Transit Police Station, and an Aircraft Rescue and Firefighting (ARFF) facility.

The BNIA Passenger Terminal is a modern, comfortable facility equipped with 25 airline gate positions that includes 2 international gates. The terminal features an efficient security screening area, a state-of-the-art baggage handling system, and a variety of food, beverage, and retail offerings. The terminal is supported by conveniently located parking facilities that provide over 7,500 parking spaces and offer free shuttle services.

A state-of-the-art air cargo facility including 1,000,000 square feet of apron area is located on the airport complex. Two scheduled air freight forwarders based at the facility handle the majority of the 88 million pounds of yearly cargo.

BNIA enjoys the reputation of providing exemplary snow removal services known throughout the airline industry and was one of the first airports in the country to use an environmentally friendly glycol treatment system during winter operations.

PROGRAM AND SERVICE OBJECTIVES

- Achieve optimal standards of performance in relation to delivering high quality customer service and satisfaction.
- Operate first class public parking facilities in a manner which makes customer service the hallmark of the operation but still maximizes returns to the Authority.
- Increase the number of passengers utilizing BNIA by aggressively improving service and reducing air fares to several key business markets and maintaining service and low air fares to key leisure markets.
- Maximize BNIA long term parking market share through sales and marketing to major local corporate travelers and contingent market radio advertising campaigns.

- Implement a long-range plan to maximize usage of the expanded terminal space.
- Support unit and snow equipment replacement program to ensure safe air carrier operations.
- Promote and facilitate a safe working environment for BNIA employees, with an effort toward minimizing employee injuries and reducing workers' compensation expense.

NIAGARA FALLS INTERNATIONAL AIRPORT

DESCRIPTION

Niagara Falls International Airport (NFIA) is a joint-use military/general aviation airport that provides commercial passenger and air cargo service. NFIA has been designated by the Federal Aviation Administration as a reliever airport to attract general aviation traffic from Buffalo Niagara International Airport (BNIA).

NFIA, which is situated on 1,100 acres of property, has a 9,800 foot main runway as well as two general aviation runways (5,188 and 4,030 feet). A 72,480 square foot state-of-the-art terminal building was opened in December 2009. Spirit Airlines and Allegiant Air provide scheduled air service. There are nearly 2,000 parking spaces located on or near the terminal building grounds with free passenger shuttle service. In addition to the main terminal, NFIA has a general aviation complex consisting of hangars, tie downs, a customer service area and a pilot's lounge. A private Fixed Base Operator, FBO, offers full aviation services to the aviation public.

PROGRAM AND SERVICE OBJECTIVES

- Continue the aggressive marketing approach to capitalize on Air Cargo and Charter opportunities in the most cost efficient operating manner.
- Work closely with the FBO to assure the performance of contracted services.
- Continue to market the NFIA terminal to potential air service providers and concessionaires to provide quality customer service and improve operating profits.
- Continue to increase satisfaction and customer service and enhance public and customer perception of the airport.

THE PROPERTY GROUP

DESCRIPTION

The primary mission of the Property Group is to maximize revenue to the Authority on its non-public transportation assets through effective property management while improving and preserving the physical and financial integrity of these Authority-owned buildings, grounds and facilities. The NFTA Board of Commissioners has recognized that the activities of the Property Group provide an impetus to enhance the region's economic development potential. The Property Group serves as the Authority-wide provider of real estate services; acting as the negotiating entity for real estate matters.

Property Management Department

Currently the Business Center's portfolio of real estate includes 480,000± square feet of industrial warehouse distribution and associated office space; 200± acres of developed and undeveloped real estate. Encumbering these properties are 75± leases of building space, ground rental, and occupancy/license agreements; 14+ miles of railroad rights of way containing in excess of 80 separate pipe, wire, and ground leases. In addition to the property management of these assets, the Business Center is responsible for establishing rental rates and tenant fees and the negotiation and preparation of real estate agreements in order to secure new tenants and provide for the renewal of existing contracts.

Real Estate Services

The Department is responsible for performing real estate services for all other NFTA divisions and Metro. This work is comprised of:

- Securing and analyzing real estate appraisals.
- Negotiating leases for the real estate of NFTA and Metro transportation operations.
- Seeking Requests for Proposals or competitive sealed bids for the sale of Authority and Metro owned real estate.
- Preparation of real estate net income analysis reports.
- Management of surplus transportation facilities.

Land Planning & Development Department

In order to capitalize on the value of NFTA's undeveloped land assets, the department manages land planning and development efforts. This activity provides for a sound financial basis for further NFTA investment in ancillary property.

PROGRAM GOALS AND OBJECTIVES

- 1.) **247 Cayuga Road** - Continue leasing program with goal to maintain maximum occupancy.
- 2.) **485 Cayuga Road** – Continue leasing program with goal to reach maximum occupancy.
- 3.) **DL&W** - Continue to progress the redevelopment of this facility in order to support community objectives.

CENTRAL ADMINISTRATION

EXECUTIVE

INTERNAL AUDIT DEPARTMENT

DESCRIPTION

Internal Audit is an independent appraisal function established within the organization to examine and evaluate its activities. The Internal Audit department reports directly to the Board Audit and Governance Committee. This reporting relationship ensures departmental independence, promotes comprehensive audit coverage and assures adequate consideration of audit recommendations. Day to day administration is provided by the Executive Director.

The general responsibilities assigned to the internal auditors include evaluating, documenting and testing the NFTA's system of internal control and the reliability and operation of accounting and other reporting systems. The Internal Audit department checks for compliance with established policies, plans, procedures, governmental laws and regulations, and reviews the soundness and adequacy of the policies and procedures to accomplish their purpose at a reasonable cost. The Internal Audit department also verifies the existence of the Authority assets assuring proper safeguards are maintained, identifies opportunities for improved operational performance, coordinates the audit work with that of the external auditors, submits audit plans to the Audit and Governance Committee for review and evaluates specific programs and performs other special projects requested by management.

PROGRAM AND SERVICE OBJECTIVES

- The objective of Internal Audit is to assist members, activities, and functions of the organization to carry out their responsibilities efficiently and effectively. To this end, Internal Audit provides analysis, appraisals, recommendations, counsel and information concerning the activities reviewed.

RISK MANAGEMENT

DESCRIPTION

The Risk Management department is responsible for protecting the financial assets of the NFTA and NFTA Metro against the adverse effects of accidental losses; establishment of Authority wide risk management programs and procedures; determining whether to maintain or transfer risk exposures via contracts.

The responsibility of the Risk Management department specifically includes the control, procurement, and specification requirements of all property and casualty insurance policies; identifying and analyzing exposures and selecting appropriate risk management techniques to handle exposures; planning what work must be done to protect the Authority by managing workers' compensation, claims, and communicating with senior management the progress of the risk management program.

PROGRAMS AND SERVICES OBJECTIVES

- Maintain continuous protection of the Authority assets through self-insurance or risk transfer via insurance policies.
- Forecast insurance costs and allocate costs to business centers on a cost of coverage basis so as to monitor annual insurance cost allocation to business centers and variances to budget.
- Evaluate the overall effectiveness of the risk management program and make changes where needed.
- Emphasize more loss control and coordinate with corporate safety to recommend training to decrease our frequency and severity of losses.
- Control and direct the Workers' Compensation Third Party Administrator, as well as the internal claim process.
- Process payments related to workers' compensation in conjunction with Third Party Administration (TPA) agreements.
- Review and maintain continuous insurance compliance protection under all leases, contracts and tenant agreements.
- Participate in the Authority wide safety program.

CLAIMS DEPARTMENT

DESCRIPTION

The overall responsibility of the Claims department is the prompt, thorough investigation, evaluation, and reasonable resolution of claims against the Authority. The department administers, under Risk Management and in coordination with NFTA Counsel, self-insured aspects of Authority operations, including Metro Bus/Rail, BNIA, NFIA and various properties, with the exception of workers' compensation. No-fault claims, including arbitrations, small and commercial court actions, personal injury and property damage claims, property damage recoveries, and lawsuits, in conjunction with Counsel, are handled from initial investigation through resolution. Additionally, the department maintains accident statistics, prepares monthly and yearly accident summaries, and serves as an investigative resource and assistant in court-related matters for other departments.

PROGRAM AND SERVICE OBJECTIVES

- The primary objective is disposing of claims within budget.
- Continue development and refining of methods to track and evaluate accident data in order to facilitate reduction of accidents.
- Emphasize interdepartmental communication in order to increase organizational ability to reduce accidents.
- Continue refinement of methods by which other departments may access accident and cost information as necessary for their operations.
- Expedite investigation and recovery procedures by development of direct computer access to bus operational and mechanical data.
- Continue development and enactment of procedures for preservation of bus/rail video, digitalization of investigative and medical records of no-fault and litigated claims.
- Obtain training for current staff to keep up to date on issues effecting tort and no-fault claims

HEALTH, SAFETY AND ENVIRONMENTAL QUALITY

DESCRIPTION

The mission of the Department of Health, Safety, Environmental Quality to implement compliance programs, policies, and procedures that verify that a comprehensive safety, health, and environmentally compliant system exists throughout the Authority, which enhances safe, secure and reliable services through the implementation of best management practices.

SYSTEM SAFETY

The **system safety** branch of the department has two primary areas of oversight responsibility. The system safety approach is a combination of both health, safety, and industrial hygiene principles, which focuses on identifying unsafe conditions that adversely affects the safety of staff and operations throughout the Authority.

As a public transportation provider, safety is incorporated into all phases of the organization. The end product of the employee safety component is the safety and security of our employees.

SECURITY

The **security** section of the department is responsible for systems Security Program Plan for the NFTA. This includes vulnerability assessment to identify the degree of vulnerability and the appropriate countermeasures needed to provide the necessary levels of protection.

This group also monitors compliance with applicable transportation security policies, directives, regulations and agreements and acts as the Authority's liaison with local, state and federal law enforcement and emergency management agencies.

ENVIRONMENTAL

The **environmental section's** main area of concentration ensures operational oversight for environmental compliance. This departmental section also ensures that sound environmental practices are observed and encourages open communication with employees, customers and the public regarding the NFTA's environmental program.

DEPARTMENTAL GUIDING PRINCIPLES

- HSEQ is committed to reducing and mitigating safety and environmental hazards in the work place that contribute loss time injuries and pollution to the environment.
- HSEQ is focused on system security will continue to identify vulnerabilities and develop effective measures and controls to eliminate intentional threats.

FYE20 SERVICE OBJECTIVES

Ensure HSEQ Compliance

- Implement a comprehensive Environmental Management system to develop organizational consistency and compliance in the environmental arena.
- Continue implementation of Hazard Management program throughout all business centers.
- Update and review all written safety and environmental programs to ensure compliance with regulatory requirements and best management practices

Provide Value

- Continue to issue Safety Bulletins and the Home Safety Tips targeted at work place injury prevention and accident reduction.
- Issue quarterly report to Management Team and business centers on corporate safety and environmental performance.
- Provide tools that can be used at the Operational level to target improved safety performance

Injury Prevention/Reduction

- Analyzing injury trend and severity data and develop corrective action plans for prevention.
- Continue to conduct injury investigations and provide business centers with tools for injury prevention and reduction.

Sustainability:

- Further NFTA's Go Green Initiatives by establishing sustainability goals based on the corporate goals and objectives of each business center.

INFORMATION TECHNOLOGY SERVICES

DESCRIPTION

The mission of ITS is to provide the NFTA, its branch operations and business centers with technology leadership and support. The goal of the ITS department is to improve organizational productivity and performance through modernization and consolidation of existing resources while expanding services.

PROGRAM AND SERVICE OBJECTIVES
